CONDITION AT PICKUP

Fuel / battery status and visible wear or damage

Notes or photos reference

Both parties should inspect the equipment and record its condition before departure.

RENTAL TERMS

1. Rental period and return

The renter takes possession at the recorded pickup time and returns all listed equipment and accessories by the due time to the agreed Mustang pickup location. Any extension requires approval before the due time. An unapproved late return may be billed at the rate written on page 1.

2. Charges and deposit

The rental charge, deposit, taxes, and extras are recorded on page 1. A weekly booking includes the weekend; early return does not refund the unused portion of a prepaid weekly rental. The deposit is held against unpaid charges, missing parts, or damage beyond ordinary wear. Any remaining deposit is returned after inspection, with an itemized explanation of deductions.

3. Care, safe operation, and breakdown

The renter will use the equipment only as intended, follow manufacturer instructions and safety guidance, and keep it secure. Do not transfer it to another person or alter it. If it breaks or appears unsafe, stop using it and contact Old City Tool promptly; do not attempt a repair without approval. The renter is responsible for damage caused by misuse or negligence.

4. Loss, damage, and cleaning

The renter is responsible for missing equipment or accessories and for reasonable documented repair or replacement costs arising during the rental, excluding ordinary wear and pre-existing damage recorded at pickup. The deposit is applied first; documented costs above it remain due. Return the equipment reasonably clean and with the same fuel or battery arrangement recorded.

5. Inspection and disputes

The parties should note condition and included parts at pickup and return and may take photos. Report any issue promptly. The owner will explain and document any proposed charge. Nothing here removes rights or remedies either party has under applicable law.

By signing, the parties agree to the prices, timing, equipment condition, and terms above.
